Distributed Systems Part II
Exercise Sheet 9

Attestation Criterion

Those, who did not get a "Testat" yet (i.e. did not receive an ACK by email) have a second chance to submit a potential exam question. Remember that your question should fulfill the following requirements:

- It should be non-trivial (i.e., not a pure knowledge question),

- it should be posed in a precise way,

- and in contrast to the first time you have to include a short solution.

Please send your question for Chapter 2 (of the part of Prof. Wattenhofer) until December 16, 2011 to:

distsystestat@tik.ee.ethz.ch

If your question fulfills our expectations, we will send you an ACK by email (if not, you get a NACK).
